

Created window sharing smb sharing activated

The screenshot displays the TrueNAS CORE web interface in a browser window. The address bar shows the URL `192.168.0.222/ui/sharing/smb/add`. The interface has a dark theme. On the left is a sidebar menu with the following items: **root** (truenas.local), **Dashboard**, **Accounts**, **System**, **Tasks**, **Network**, **Storage**, **Directory Services**, **Sharing** (highlighted in blue), **Apple Shares (AFP)**, **Block Shares (iSCSI)**, **Unix Shares (NFS)**, **WebDAV Shares**, **Windows Shares (SMB)**, **Services**, and **Plugins**. The main content area is titled **Sharing / SMB / Add**. It contains a **Basic** configuration panel with the following fields: **Path *** (set to `/mnt/NAS/File`), **Name** (set to `File`), **Purpose** (set to `Default share parameters`), and **Description** (empty). There is a checkbox for **Enabled** which is checked. At the bottom of the panel are three buttons: **SUBMIT**, **CANCEL**, and **ADVANCED OPTIONS**. The top right of the interface shows the **iXsystems** logo and a copyright notice: **TrueNAS CORE® © 2021 - iXsystems, Inc.**. The Windows taskbar at the bottom shows the time as 21:01 on 16/06/2021.
