### Defects Fixed (1):

ID: DCSG01214659  
Headline: Wrong product name is displayed in BIOS POST.  
Description Of Change: Added correct SSDID reference to refer the correct product name from strings file.  
Issue Description: During BIOS POST display, wrong product name is displayed for a specific Sub Sys Device ID.  
Steps To Reproduce: 1. Flash latest BIOS package on a specific HBA SKU.  
2. During system BOOT observe the BIOS POST display for product name.  
3. The name is displayed does not match the SKU product name.

### Enhancements Implemented (1):

ID: DCSG01143077  
Headline: Showing missing HBAs in BIOS post

**Description Of Change:** Core BIOS checks if user can perform configuration changes, if not then auto correction is made for the BIOS POST display. All the HBAs (Up to 4) are added depending on their discovery order. Since the Core BIOS updates the adapter list every time, a message Updating adapter list is shown every time to user.
