Eufy

☐ DHCP ?

☐ NAT ?

IPv4 Interface
vnet0

IPv4 Address
192.168.0.115

IPv4 Netmask
24

IPv6 Interface
—

IPv6 Prefix
—

This is what I assumed were the correct settings. Note: the IP4 address is the camera.

50.00%

pkg failed to install, retry #1

Here you can see it failed at 50% and is retrying.

Install

Error: Eufy had a failure Exception: RuntimeError Message: pkg error: - pkg-static: http://pkg.FreeBSD.org/FreeBSD:12:amd64/latest/meta.txz: No address record pkg-static: http://pkg.FreeBSD.org/FreeBSD:12:amd64/latest/packagesite.txz: No address record Please check your network Partial plugin destroyed

CLOSE

Here it eventually failed completely.
What did I do wrong?
